PUBLIC ADVISORY ON TRANSIT REGULATIONS

FILIPINOS USING INCHEON AIRPORT AS TRANSIT POINT

Filipino nationals who plan to use Incheon Airport as transit point for onward flight to the Philippines are advised to consider other transit routes as there are **no RT-PCR testing facilities** in said airport. If transit through Incheon is unavoidable, passengers must ensure that their test results are valid for entry in the Philippines.

TRANSIT REGULATIONS IN MALAYSIA

Filipinos going home to the Philippines are advised to avoid transiting through Malaysia as **Malaysian airport authorities still strictly prohibit the transfer of passengers arriving at KLIA Terminal 1 to Terminal 2** (used by Air Asia, Cebu Pacific, Jetstar and other budget airlines). Transit passengers will not be allowed by the Malaysian Immigration Department to enter Malaysia as they have not gone through Malaysia's entry requirements.
